DC Chamber of Commerce
DELIVERING THE CAPITAL

Powered by Global Classroom and Sponsored by Microsoft

A recently released study from the Boston Consulting Group¹ found that small and medium-sized firms in the “leader” category in such things as internet connectivity and cloud-based services created nearly twice as many jobs and grew revenue 15 percent points over their “laggard” peers.

To help you on your way to becoming an IT Leader, I invite you to join the DC Chamber of Commerce eLearning Portal Powered by Global Classroom. By registering, you will get access to hundreds of technical and business content including courses like: Cash Flow Management Essentials, Thinking like a CFO, Microsoft Office 2013 and Windows 8, To jumpstart your path, **Microsoft is sponsoring six-months of free access** to members of the DC Chamber of Commerce.

¹ The Boston Consulting Group surveyed 4000 small and midsize businesses internationally, in an independently conducted study commissioned by Microsoft. The complete study, [Ahead of the Curve: Lessons in Growth from Small and Midsize Businesses](#), was released on October 5, 2013.
